Implementation of the Packaging and Packaging Waste Regulation (PPWR), in particular the requirements set out in Article 5

Dear Sir or Madam,

We hereby inform you about the implementation of the Regulation (EU) 2025/40 of 19 December 2024 on packaging and packaging waste (PPWR) that applies from 12 August 2026.

We are familiar with the requirements of the PPWR and will comply with our legal obligations. This includes, in particular, the issuance of **declarations of conformity** for our packaging based on conformity assessments to be carried out.

To assess compliance with **Article 5(4) and (5) of the PPWR**, we request, amongst other things, supplier declarations confirming that

- The **use of PFAS is not intended in the manufacturing process** and
- **All relevant substance limits** set out in Art. 5(4) of the PPWR are complied with.

We will continue to incorporate further regulatory developments, including new implementing acts adopted by the European Commission.

Sincerely yours,

AUGUST STORCK KG

Dr. Bernd Roessler
